How to Use Dial Telephones

GENERAL INSTRUCTIONS

To place a call proceed as follows:

(1) Obtain the correct number, (2) place the receiver to your ear and listen for the dial tone, a constant humming sound, which indicates the line is ready for use. If your telephone is equipped with a hook latch, see instructions under "Hook Latches."

HOW TO DIAL

To dial any figure, place your finger in the dial hole over that figure, turn the dial around to the right until your finger touches the finger stop. Remove your finger and permit the dial to turn back to its normal position. For example, to dial 2742, first dial the 2 followed by the 7 - 4 - 2. If you make a mistake in dialing, replace the receiver for a few seconds and start over again.

After you have finished dialing, you should hear in the receiver either a ringing signal (an intermittent burr-rr-ing sound) or the busy signal (a rapid buzz-buzz-buzz).

If the ringing signal is heard, it means that your connection has been established and that you should allow a reasonable length of time for someone at the called station to answer.

If you hear the busy signal, it means that the called telephone is busy.

If you hear neither of these signals within a few seconds after dialing, hang up the receiver, wait a few seconds and dial the complete number again.

When through talking, hang up the receiver so that your line will be disconnected and will be ready to make or receive other calls.

If you wish to make several calls in succession, hang up your receiver for a few seconds between each call.

INSTRUCTIONS TO RURAL AND PARTY LINE SUBSCRIBERS

(1) Endeavor to limit conversations to five minutes duration. By so doing, party line service will be much more efficient.

(2) Always listen in the receiver before dialing; someone may be using the line. If you hear dialing "clicks" when you lift the receiver, it indicates someone is dialing a number and therefore the line is in use.

HOOK LATCHES

Telephones on rural lines are equipped with hook latches which limit the initial movement of the receiver hook. When the receiver is removed the partial movement of the receiver hook permits you to listen and determine if the line is busy. The release of the hook latch permits the receiver hook to move to its full operated position, connecting the telephone for answering calls; or for dialing as soon as the dial tone is heard.

HOW TO DIAL ANOTHER TELEPHONE ON YOUR LINE

(1) If the **first** and **second** figures in the number you wish to call are the same as the first and second figures in your own number, the party is on your line. For example: 2612 and 2616 are on the same line.

(2) To call another party on your line, dial the number desired; a busy signal (a rapid buzz-buzz-buzz) will then be heard. Replace your receiver, then the called party's telephone will be rung. On a rural line your telephone will ring also. The answer of the called party will stop the ring; you may then remove your receiver and talk.

TO PLACE AN EMERGENCY LINE RING ON RURAL LINES

To place an emergency line ring **on your line**, dial the first two figures of your number, followed by 23. For example, if your number is 2612, you would dial 26-23. Replace your receiver after dialing and all telephones on the line will ring. When the ringing stops, remove the receiver, trip the hook latch, and talk.

To place an emergency line ring **on another line**, dial the first two figures of any number on the other line, followed by 23. For example, if you were calling 4012, you would dial 40-23. Do not replace the receiver until you have finished talking.

The emergency line ring is two short rings — pause — three short rings.

If You Experience Difficulty, Dial "0", and Ask the Operator for Assistance
She Will Be Glad to Help You

THE LINCOLN TELEPHONE & TELEGRAPH CO.

General Offices, 1342 M STREET, LINCOLN, NEBRASKA

J. A. McKINZIE, District Manager

W. L. ECKLES, Area Manager

Issue No. 17

TERMS AND CONDITIONS

Governing Service Furnished by The Lincoln Telephone & Telegraph Co.

USE OF EQUIPMENT BY SUBSCRIBER

Telephone service is for the exclusive use of the subscriber, members of his family, and/or his employees. The equipment shall not be removed from the subscriber's premises except by an authorized employee of the Company, and shall be surrendered to the Company upon the termination of the subscriber's contract.

PAYMENT FOR OUT-OF-TOWN CALLS

The subscriber agrees to pay promptly for all toll line service furnished over the instrument leased under his contract regardless of whether such calls are placed with his knowledge and/or consent.

FOREIGN EQUIPMENT AND APPLIANCES

The equipment furnished by the Telephone Company shall not be connected with any other equipment and no instrument or appliance shall be connected to it. Telephone instruments have been designed to produce the best results and are necessarily sensitive and intricate. The various devices which are offered for sale, and which are supposed to improve transmission, eliminate noise, destroy germs, or afford improvements, are not only unnecessary, but generally cause trouble. In order to protect its service the Telephone Company will remove all such appliances.

RIGHT OF ACCESS TO PREMISES

The agents of the Company shall have the right to enter the premises of the subscriber, at all reasonable hours, for the purpose of inspection, repair or removal of Company's equipment or wiring. The Company reserves the right to make observations of service rendered to the subscriber for the purpose of improving the service by detecting trouble or annoyances caused by the subscriber, or improper use of the service by the subscriber.

ALLOWANCE FOR FAILURE OF SERVICE

The Company does not guarantee the uninterrupted working of the line or instrument. No reduction from the exchange service charge shall be made for interruptions unless the same have continued for more than forty-eight hours after notice is given of each interruption.

In case of widespread disaster, resulting in interruption to the service, no reduction from the exchange service charge shall be made unless the same shall have continued for a period of more than one week.

DIRECTORIES

The Telephone Directory is published for the convenience of subscribers, but the Company assumes no liability for damages to subscribers for errors or omissions. No change in listings will be made or new listings inserted in the next issue of the Directory, unless the necessary work of making the change or installation involved is completed before the Directory form closes for the printers. The Telephone Directory is issued by and is the property of The Lincoln Telephone & Telegraph Company, and shall be surrendered upon delivery of each later issue. It is copyrighted, and all persons are warned against attaching any unauthorized advertisement, binder, holder, auxiliary cover or attaching any device that will in any way obscure or interfere with any authorized advertisement in the Directory or on the cover thereof.

DEFAULT OF PAYMENT OR OTHER BREACH OF CONTRACT

All bills are due when rendered, and are payable at the Company's business office. However, failure to receive a bill will not exempt the subscriber from prompt payment as required by his contract. In event of any default of payment, or other breach of the terms of its service contract, the Company reserves the right to discontinue the subscriber's service or disconnect and remove its telephone equipment.

INFORMATION AND TRANSMISSION SERVICE

The Company assumes no liability for errors which may arise in imparting information. The subscriber assumes all risks for errors and delays in the transmission and delivery over the instruments and lines of the Telephone Company.

CHANGE OF NUMBER

The Company reserves the right to change at any time, any telephone number to meet service requirements.

SERVICE CONNECTION AND MOVE CHARGES

The telephone equipment will be placed as near as possible where first directed by the subscriber. If the subscriber orders a change of location of any part of the telephone equipment, a charge will be made in accordance with rules and regulations then in effect.

Full explanation may be obtained from the Business Office.

OUR POLICY

It is the constant aim of this Company to furnish a high type of telephone service at the lowest rate permitting of the furnishing of such service. In the rendering of telephone service, the Company considers the interests of its subscribers and of the telephone using public in general as of the utmost importance. It is the Company's desire to keep its subscribers informed continually of its aims, objectives and problems in order that there may be a mutual understanding of these important factors. Constructive suggestions and criticisms offered by subscribers are always welcome.

For Better Service

Telephone service in America today is still the finest in the world.

This is true in spite of equipment and labor shortages which sometimes make it necessary to "spread the service a little thin" in order to serve the maximum number of people.

Your understanding of our problems and cooperation with our employees who are extending every effort to serve you efficiently with the material at hand are very much appreciated and work for the ultimate betterment of telephone service for everyone.

A New Freedom of Speech

Sixty-nine years ago the first spoken words were successfully transmitted over the telephone.

The telephone gave a new meaning to freedom of speech. It made men free to talk to the whole world . . . breaking down boundaries of distance . . . overcoming natural obstacles.

Still serving the cause of freedom, the telephone industry is tirelessly working to help speed the day when it can resume its true functions of serving peace and progress.

For Better Service

Telephone service in America today is still the finest in the world.

This is true in spite of equipment and labor shortages which sometimes make it necessary to "spread the service a little thin" in order to serve the maximum number of people.

Your understanding of our problems and cooperation with our employees who are extending every effort to serve you efficiently with the material at hand are very much phone service for everyone.
